

Fumigation students study materials

- Follow this time table

Day 1 :

1. Triangle shape patterns (Left triangle, Right triangle, Pyramid)
2. Insertion and Deletion operation in Array
3. Class and Object

Day 2 :

1. F Type Pattern, Practise all similar questions
2. Sorting
3. Inheritance and it's types with example

Day 3 :

1. Number patterns
2. Frequency of an Array (How to make it as find Unique and Duplicate values)
3. Polymorphism and its types with examples

Day 4 :

1. Hollow type pattern
2. How to reverse an Array without using any extra arrays
3. Abstraction with example

Day 5 :

1. Alphabet Pattern
2. Merging two Arrays
3. Access modifiers and Encapsulation with example

Day 6 :

1. Find some other type of patterns like X, N, M, W, Z
2. Find prime number, largest and lowest number from unsorted array
3. Exception handling and study some keywords like Static, Final, this, super

Day 7 :

1. Revise all the topic

Day 8 :

1. Attend mock interview and pass

Reference materials :

1. [100K Coding Challenge](#) (Youtube video(Brototype))
2. [Tips To pass Brocamp Fumigation](#)
3. [Printing pattern programs in C](#) (Youtube video in English)
4. [Printing pattern programs in C](#) (Youtube video in English)
5. [Printing pattern programs in C](#) (Youtube video in Hindi)
6. [Basic Array concepts](#)_(Youtube video in English)
7. [Basic Array concepts](#) (Youtube video in English)
8. [Basic Java concepts](#)_(Youtube video in Malayalam)
1. [Basic Java concepts](#) (Youtube video in English)
9. [Basic Java OOPs Concept](#) (Youtube video in English)
10. [Java concept](#) (Website)
11. [w3school](#)_(Website)

Good luck with your preparation! 😊

This guide is here to help you prepare for your fumigation interview, but true success comes from consistent practice and self-learning. Don't stop with the topics listed here—explore more, tackle extra problems, and challenge yourself to grow.

Focus on the basics; they're the foundation for everything more advanced.

“Small efforts every day lead to big success.” Keep pushing forward—you've got this!
